# Lawnside School District

## *“Comeback” Plan Highlights*

August 8, 2021

---

### *Introduction*

*The return to full in-person learning in New Jersey requires continued collaboration between federal, state, and local officials. A careful approach to reopening schools must remain flexible and provide guidance to pivot should health conditions change. Lawnside residents, students, and educators have been resilient and with the guidance offered in this document, the district seeks to successfully transition back to in-person instruction in a way that protects all of our stakeholders while continuing to provide a high-quality education.*

### *District Mission Statement*

*The mission of the Lawnside School District is to educate our students, through mastery of the New Jersey Student Learning Standards(NJSLS), to become independent thinkers and problem solvers so they will be empowered to meet the challenges of and achieve success in tomorrow's emerging world community. The educational community will provide a safe, nurturing environment in which individual and civic responsibility is fostered and diversity is respected.*

As the coronavirus continuously requires school districts to be flexible, the Lawnside School District will return to full in-person instruction for the 2021-2022 school year. Below is a guide highlighting updated aspects of our return.
